GLOBAL VILLAGE

TelePort™ 56K

V.90 Fax/Modem

The #1 Choice for Fast Internet Access from Your Macintosh®.

Now you can browse the Web at extraordinary speeds—up to 56 Kbps—over ordinary phone lines, and enjoy fast faxing and file transfer too. With features not found in any other modem this affordable, the TelePort 56K fax/modem comes complete with everything you need for quick setup, powerful faxing and data transfer.

Quality You Can Trust

Made exclusively for Macintosh, the Global Village TelePort 56K includes features you just won't find with other 56K modems. Award-winning GlobalFax™ software, Setup Helper, on-screen status display and more! TelePort 56K, the unbeatable value that's made Global Village the preferred brand of fax/modems among Macintosh owners everywhere!

With speeds of up to 56 Kbps, the TelePort 56K cuts Web page and remote access downloading time almost in half!

• TelePort 56K fax/modem with power supply and attached serial cable.

Includes:
• TelePort User's Guide
• Telephone cable
• CD-ROM with:
  - GlobalFax software and user's guide
  - Setup Helper
  - AT Command Guide
  - Data communications software
  - Online service provider software

This modem is 56 Kbps capable; however, phone line conditions or regulations may limit download speeds to 53 Kbps or less.

Boost your Internet access over standard phone lines … and enjoy simple, powerful fax and file transfer. The all-in-one solution from the leader in data and fax communications for the Macintosh.
